Review of Research Publications by Author John W Spink

February 2024

Dr. Spink's focus on food fraud prevention scholarship has been ongoing for almost 15 years. The first key publication was 'Defining the Public Health Threat of Food Fraud' published in 2011. A series of articles conclude with the publication of the Food Fraud Prevention textbook in 2019. The key publications are presented in the figure below.

The defining food fraud publication sparked a series of research projects including developing of the Food Fraud Initial Screening Tool (FFIS), the Food Fraud Prevention Cycle (FFPC), as well as a series of projects that explored thoroughly that the topic was being addressed such as by INFOSAN/ WHO/FAO, INTERPOL/ Europol, UK Defra, the Grocery Manufacturers Association, Chinese National Center for Food Safety Risk Assessment (CFSA), Food Safety Authority of Ireland (FSAI), and others.

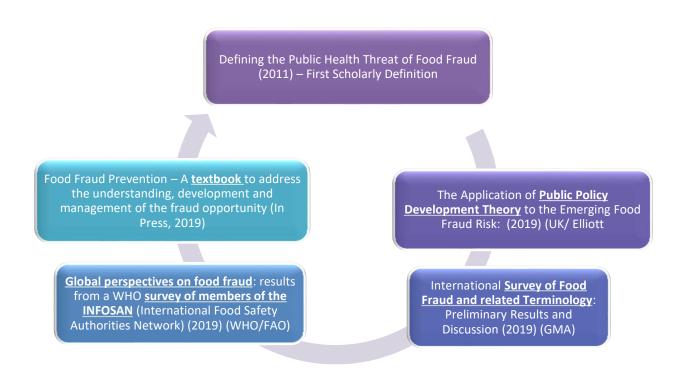

Figure 1: Key articles in the series from defining the term, through testing the application and scope of activities, and completion with the publication of the Food Fraud Prevention textbook.

Books

- Spink, John, (In Press). Supply Chain Management Introduction: Sourcing, Operations & Logistics – including supply chain disruptions, and case studies of food fraud prevention, cybersecurity, and enterprise risk management, York Partners LLC (Publishing), ISBN 978-x-xx-xxxxx-x, www.ScmIntro.com. (Student Version published in 2020 and available only by direct distribution for MSU SCM303 Introduction to Supply Chain Management).
- Spink, John W (2019). <u>Food Fraud Prevention Introduction, Implementation, and</u> <u>Management</u>, Food Microbiology and Food Safety series, Springer Publishing, New York, eBook ISBN 978-1-4939-9621-6, DOI 10.1007/978-1-4939-9621-6, Hardcover ISBN 978-1-4939-9619-3, Edition Number 1,Number of Pages XIX, 591

Journal Articles

(Selected, in chronological order with hyperlinks and key works are highlighted)

(Note: ISI = ISI Impact Factor; SJR = Scopus journal Ranking)

[Note: Scopus is an abstract and citation database that includes a Scimago Journal Ranking [SJR] and CiteScore based on the total published documents and citations in other journals. Scopus includes the Hirsh index, reported as "h-index," which is an author-level metric of the productivity and impact of the publications – an h-index of 10 means that the author has at least 10 Scopus listed articles with at least 10 Scopus listed citations.]
